# PROVEN PERFORMANCE

#WHY  
DYMATIZE

At Dymatize, we pride ourselves on putting our scientifically proven products to the test with elite athletes at world class training facilities. Dymatize is the sports nutrition supplement brand of choice for Chip Smith Performance Systems — a world-class training facility where the best athletes go to get better!

# REAL SCIENCE

Dymatize is committed to bringing you the most innovative and effective sports nutrition products available anywhere. Real Science is always the foundation of our product development.

Our team of scientists, led by Dr. Rob Wildman, has over 50 years of experience developing revolutionary products based on Real Science. The Dymatize Science Team works with researchers and scientists from around the world to ensure our formulations deliver maximum results without compromising your safety.

# VERIFIED QUALITY

At Dymatize, we go above and beyond industry quality and safety standards to give you confidence when using our products. Our products are manufactured in Good Manufacturing Practices (GMP) certified facilities to ensure only the highest-quality ingredients are used. All protein powders are Informed-Choice Certified providing assurance that they are free of banned substances. We proudly stand by our commitment to quality and safety. We spend millions of dollars each year in testing and quality assurance.

SEE MORE

If your goal is gains in muscle size and strength, then ISO100 is your perfect workout partner. Loaded with muscle building amino acids, ISO100 can support even the most serious resistance-training programs.

Known worldwide for quality, taste and purity, ISO100 is produced to our highest quality standards. ISO100 is formulated using a cross-flow microfiltration, multi-step purification process that preserves important muscle-building protein fractions while removing excess carbohydrates, fat, lactose and cholesterol.

ISO100 is made with pre-hydrolyzed protein sources to ensure fast digestion and absorption.
